Dear all,

Today is the deadline for responses to our survey. The five versions of our questionnaire about "Living with Lupus: Career / Work situation" have been closed for responses and all data is now transferred to another server for the next step of analysis.

Since last status two weeks ago we have had *another* 200 respondents entering the survey!

I am very proud to report the final count is:

2188 responses in total

English version - 596 responses (97,6% with lupus)

German version - 638 responses (98,9% with lupus)

French version - 215 responses (94,1% with lupus)

Italian version - 405 responses (98,1% with lupus)

Spanish version - 334 responses (97,1% with lupus)

Responses from "Other" (countries) only 6,4%

An amazing result!

And according to a quick glimpse on the raw data, it mainly seems to be meeting the basic presumptions of study requirements and in accordance with the typical lupus profile. *Promising.*

Look here at the numbers:

In Budapest at the LUPUS EUROPE Convention we will be able to discuss this further - the experience, overall top results and the next steps of analyzing the findings.

The volume of responses will have an impact on the value of this survey, where we will work for presenting yet again at the key events next year - European Lupus Meeting in Porto April 6-9 and at EULAR Congress 2011, London, May 25-28.

Looking forward to some open and great discussions, I remain

Sincerely,

Kirsten
